R. Jervis, R. Hendricks among Distinguished Faculty

Wilmington, DE. - February 1, 2006 – Richard M. Jervis PE, the Director of Engineering, and Richard H. Hendricks PE, Engineering Manager with On-Board Engineering are among the distinguished faculty hosting a seminar entitled, “Proper Assessment and Planning for Structural Renovations for Existing Buildings and Structures” in association with Lorman Business Center Inc., on February 10, 2006 in Wilmington, DE. The same group will also be hosting a similar function in New Brunswick New Jersey, on April 19, 2006.

East Windsor, NJ based On-Board Engineering Corporation, is part of the On-Board family of companies, specializing in providing professional engineering, design, consulting, construction management and program management solutions to Fortune 500 clients. For more information on this seminar, contact (609) 945-8000. To register for the meeting, call (715)833-3953.
